

Quickguide food waste functionality – desktop

1. To register food waste via a computer, you must be logged in to your purchasing portal. Click the Menubank tab, followed by Food waste and the blue button to register food waste. See image below for description. You can also download an excel report to get a better overview.

2. Enter data into the data fields in the form and select «Register». You can also register values back in time or correct any possible mistakes.
